As a Degrees@Work Program student, I understand that Stellantis has made the determination that students who have 100% of tuition covered under the program should not incur additional debt related to their education and therefore that I cannot take out federal financial aid student loans and participate in the program. However, those participating in this program may be eligible for Pell grants, or other grants and benefits. I consent to receive autodialed marketing calls or text from Strayer at the phone number I provided. Consent is not required to purchase goods or services.
