

Student Services Coaches: Your Support Network

My introduction to the Strayer Student Services Coaches was fantastic. The coaches made me feel like I wanted to come to Strayer. I think they do a great job of having all the personnel and support systems you need, right there for you at any time. Since obtaining my bachelor's the network I've developed within Strayer and outside of Strayer has grown. Strayer was a good choice for me because it brought my educational aspirations and career aspirations together.

My name is Paul and I'm studying educational and structural design at Strayer University.

(Paul Parker III, Strayer Student)
